

Gulf Safety Award 2020

31 March 2020 | Bahrain

The Organisers of OPEX MENA 2020 – ‘Excellence in Safety & Operations’ - Conference & Exhibition, are pleased to announce that the Gulf Safety Award 2020 is now open for submissions.

Presented to the company who demonstrates the best overall achievement in safety during the last two years, this award will celebrate the company who has found innovative ways of making lasting improvements to the safety and health of their workers, to the environment and to productivity. By sharing their examples and recognising their achievements, the Gulf Safety Award hopes to drive change, promote best practice in safety and demonstrate how an excellent safety record is the most important milestone in any operational excellence strategy.

A Judging Panel of five independent safety experts will evaluate the submissions according to criteria such as management involvement, cultural evolution, performance improvement, innovation and stakeholder engagement. All applications should demonstrate measurable results and improvements that can be gauged through defined key performance indicators.

Applications will be shortlisted to a maximum of five entrants (one submission per participating company).

ENTRY CRITERIA

1. If your company has introduced an innovative OE & Safety programme or new operational management techniques that have achieved significant, enduring results, we invite you to apply for this award. You are required to register your intention to participate in the Award by 30 September. The deadline for the full and detailed application is 29 February 2020 and must be submitted by email to: office@europetro-me.com
2. The Gulf Safety Award is only open to organisations that register to attend OPEX MENA 2020 and who will be present during the Award Ceremony on 31 March 2020.
3. In order to ensure fair and ethical standards, in cases where the applicant may have had direct working relationship with a member of the judging panel in the area of HSE, the judge in question will not be part of the review committee for that application.
4. If you are unsure whether your company is qualified to pass the entry criteria, please contact us at office@europetro-me.com

“Safety” refers to policies and procedures that ensure the safety and health of employees within a workplace, including hazard identification and mitigation, as well as safety training and education.

The Winner will be announced on the morning 31 March 2020 during the Opening Ceremony of the OPEX MENA Conference. The Winner will be presented with an Award Trophy and invited for a photo call.

PROJECT DESCRIPTION

The full application for the Gulf Safety Award must include:

1. A brief description of the company and its trajectory, including activities in the field of safety and if relevant, how they support the company's Operational Excellence implementation programme. Maximum one A4 page (3000 characters).

2. A brief summary of the project – maximum three A4 pages (10,000 characters) providing a description of the conceptual, structural, operational and technological aspects of your project, with a clear structure and subtitles addressing the different aspects and criteria:

- *What was the consistent improvement or sustained leading performance in safety (for a minimum of two years)?*
- *What are the performance measurements (established through recognized industry, national and/or international metrics)?*
- *What are the key leading safety indicators?*
- *What are the lagging safety indicators?*
- *What was the safety and business challenge faced?*

Please note the Judges will consider the following five criteria to award the prize:

- Performance Improvement – what results were achieved? Demonstrate using key performance indicators (KPIs)
- Visible Management Commitment – how has management played a role in achieving the positive outcome?
- Sustainability of the Initiative – what measures were included to ensure the continued success of the initiative?
- Cultural Improvement – what cultural elements were leveraged, and how did they contribute to the sustainability of the initiative?
- Stakeholder Engagement – how were stakeholders (internal or external) engaged to deliver the positive outcomes?
