ME-CAT 2018 HIGHLIGHTS

On 5-6 December in Bahrain, the Middle East catalyst community came together at ME-CAT – Middle East Catalyst Technology Conference, to network and share insights on how to maximise success through catalyst innovations.

The conference took place under the Patronage of H.E. Shaikh Mohammed bin Khalifa Al Khalifa, Minister of Oil, with the support of the National Oil & Gas Authority (NOGA) and Bapco as Principal Sponsor.

The conference was kindly sponsored by Bapco, ExxonMobil and Axens.

Participants discussed factors for the increase in refining and petrochemical catalysts demand and latest innovations in catalysis for clean fuels production, increase of oil residue conversion and to meet the growing demand in petrochemical products. Speakers shared their case studies of catalyst management in their refineries and petrochemical plants during the conference.

We had the privilege to hear from Bapco, Saudi Aramco, YASREF, KNPC and ADNOC Refining sharing their experiences and knowledge.

We would like to thank all the Speakers, Delegates, Sponsors and Exhibitors for your participation at ME-CAT 2018!
